PROFESSIONAL SUMMARY

Full Stack Developer specializing in the **MERN** stack and **Next.js** with a focus on **AI-driven** application architecture. Expert at bridging high-performance **frontend interfaces** with intelligent backend logic using Python and modern API integrations. Proven track record in developing scalable, responsive web solutions that enhance user engagement through automated features and optimized data workflows.

TECHNICAL SKILLS

- Languages & Frameworks: JavaScript (ES6+), TypeScript, Python, React.js, Next.js, Node.js, Express.js, Django
- Frontend Development: HTML5, CSS3, Tailwind CSS, Bootstrap
- Backend & Databases: MongoDB, Mongoose, RESTful APIs, Serverless Functions, JWT Auth
- AI & Data: Generative AI API Integration, Prompt Engineering, Pandas, NumPy
- Developer Tools: Git, GitHub, Vite, Postman, Vercel

WORK EXPERIENCE

Engineering Intern

Jan 2026 – Present

Solitaire Infosys, Mohali, Punjab

Currently serving as an **Engineering Intern** at **Solitaire Infosys, Mohali**, contributing to industrial-level software development with a focus on the **MERN stack** and **Next.js**. Actively involved in building scalable web applications and integrating **AI-driven features** within an Agile environment. Collaborating with senior engineers to deliver high-quality, responsive solutions while gaining hands-on experience in full-lifecycle application development and performance optimization.

Project

[Quite-App | AI-Enhanced Social Platform](#)

Next.js, MongoDB, NextAuth.js, Tailwind CSS

- Developed a full-stack social ecosystem focusing on high-speed data fetching and SEO optimization using Next.js App Router.
- Implemented robust security protocols with NextAuth.js for multi-provider authentication and encrypted session management.
- Engineered a custom dashboard with real-time updates and responsive layouts, achieving a 95+ score on Google Lighthouse performance metrics.

[AI-Powered Code Reviewer | Productivity Tool](#)

React, Node.js, Express.js, OpenAI/Gemini API

- Developed an automated code analysis engine that provides real-time suggestions for logic optimization and security vulnerability detection.
- Integrated a RESTful API architecture to handle asynchronous AI requests, ensuring a non-blocking user experience during large file uploads.
- Built a seamless UI with Vite and Monaco Editor integration for a professional-grade coding environment in the browser.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

2022 – 2026

Rayat Bahra Institute of Engineering & Nano Technology (RBIENT)

CGPA: 7.0/10

CERTIFICATIONS & LEADERSHIP

- Introduction to Generative AI Studio – [Google Cloud](#)
- Generative AI Mastermind – [OutSkill](#)
- NCC 'B' Certificate Holder – [National Cadet Corps](#)
- Head Coordinator – [Cultural & Sports Events](#)
